Methodology

The *Professional Pilot* PRAISE Survey is an annual tabulation of customer opinions of aviation ground services. Executives in charge of flight departments, aviation managers, chief pilots, pilots, CEOs and other qualified subscribers to *Professional Pilot* magazine are polled once a year in order to determine the PRAISE Winners' List. PRAISE is the gold standard of aviation ground service leaders.

Pro Pilot uses a multistep process to ensure accurate PRAISE survey results.

1 Ballots were sent to subscribers in 5 waves.

- PRAISE forms were sent to subscribers in Oct 2017.
- PRAISE forms were sent with the Nov and Dec 2017 issues of *Professional Pilot*.
- Additional mailings were sent to *Pro Pilot* subscribers separately from the magazine in Jan 2018 and March 2018.

Subscribers were instructed to return their completed ballots to *Professional Pilot* in Alexandria VA. Cutoff date for the 2018 PRAISE Survey was April 12, 2018. Late ballots were not included in the tally.

8 Wilson Air Center HOU

Wilson Air HOU is proud to be #8 in this year's PRAISE Survey. From the branch are (L-R) CSR Penny Longoria, Concierge Gazigy Naim, Line Tech Cody Thorpe, Line Supervisor Ryan Walker, Line Mgr Kenny Tarrance, Line Tech Ariel Martinez and Line Tech Yazmi Cruz.

10 Signature STP

Signature STP completes our top 10. Representing the STP location are (back row, L-R) Line Support Techs Bob Gilles, Andrew Eull (also oversees quality control) and Ryan Archer. (Front row, L-R) CSR Michaela Brown, Duty Mgr Sandy Tachovsky and CSR Carly Davidson.

Strict checking was done and only 1 ballot per participant was allowed. Voting was restricted to only qualified *Pro Pilot* subscribers. In categories where they compete, members of organizations or individuals were not permitted to submit ballots. Public relations, marketing and advertising personnel are ineligible.

Ballots are checked thoroughly to ensure all information listed is current and correct. Careful verification of FBO names is made since some names change because of mergers or acquisitions. The 2018 PRAISE Survey received a total of 1211 ballots. Of these forms a total of 1068 met the *Pro Pilot* acceptance criteria and were used in the analysis. There were 143 ballots disqualified due to inconsistencies, errors, duplications, and lack of required information.

2 Qualified ballots were sent to Conklin & de Decker to transfer the data from the original forms to an electronic database.

3 Database information was analyzed and tabulated by Conklin & de Decker at their headquarters in Arlington TX. A precount as a preliminary step was accomplished followed by a final count to determine the rankings and winners. The winners list was finalized on April 18, 2018.

US FBO Chains

() denotes 2017 ranking * did not place in 2017

In the *Pro Pilot* PRAISE Survey the definition of a small chain is 3–10 bases. A large FBO chain contains 11 or more. Those FBOs with only 2 locations are considered as 2 separate independents. FBO groups classified as networks are not considered FBO chains. A PRAISE judges panel composed of top av dept mgrs established these definitions in 2011.

Best Small FBO Chain (3–10 locations)

Wilson Air

Wilson Air Center is thrilled to be the #1 Best Small FBO Chain, as voted by *Pro Pilot* readers for the 11th time (2007–2009, 2011–2018). The company wishes to thank its team members and customers for this accomplishment. From L–R are Line Supervisor Troy Pickett, CSR Mgr Chris Bell, CSR Amy Brothers, Concierge Deb Hullender, Line Technician Kevin Cusack, Ops Mgr Andrew Swain and Safety/Training Coordinator Louis Bell.
